MAIL STOP PETITION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The U.S. Patent and Trademark Office (U.S.P.T.O) mailed a non-final Office Action in the above-titled patent application on February 10, 2004. The Applicants' representatives did not receive a copy of February 10, 2004, Office Action, and consequently, did not timely respond to the Office Action. The U.S.P.T.O mailed a Notice of Abandonment in the above-titled patent application on October 20, 2004, which was returned to the U.S.P.T.O on October 29, 2004, as undelivered. On January 21, 2005, the Applicants' representatives filed a request for change of address and a petition to revive an unintentionally abandoned patent application, and on March 14, 2005, the U.S.P.T.O mailed a Decision on Petition, in which the U.S.P.T.O denied the Applicants' petition for failure to include a response to the February 10, 2004, Office Action with the petition.

In accordance with the Decision on Petition, the Applicants are requesting reconsideration of the petition to revive an unintentionally abandoned patent application filed on January 21, 2005, and are filing this paper in response to the Office Action mailed February 10, 2004. The Applicants respectfully request that the U.S.P.T.O restart the time period for responding to the February 10, 2004, Office Action in view of the fact that Applicants' representative did not receive such Office Action. In the event that the U.S.P.T.O denies the Applicants' request to restart the time period for responding to the February 10, 2004, Office Action, the Applicants respectfully request that the U.S.P.T.O. grant the Applicants' petition to revive an unintentionally abandoned patent application. The Applicants also respectfully request that the Examiner reconsider the above-titled patent application in view of the following:

Amendments to the Claims begin on page 3 of this paper

Request for Reconsideration begins on page 8 of this paper.

Arguments/Remarks begin on page 9 of this paper.

Conclusion begins on page 13 of this paper.
